The tragedies of the Greek dramatist Sophocles have come to be regarded as the high point of classical Greek drama. Sadly, only seven of the 123 tragedies he wrote have survived, but of these perhaps the finest is *Oedipus the King*. The play was one of three written by Sophocles about Oedipus, the mythical king of Thebes (the others being *Antigone* and *Oedipus at Colonus*), known collectively as the Theban plays. Sophocles conceived each of these as a separate entity, and they were written and produced several years apart and out of chronological order. *Oedipus the King* follows the established formal structure and it is regarded as the best example of classical Athenian tragedy.

- ① A total of 123 tragedies were written by Sophocles.
- ② *Antigone* is also about the king Oedipus.
- ③ The Theban plays were created in time order.
- ④ *Oedipus the King* represents the classical Athenian tragedy.

It seems incredible that one man could be responsible for opening our eyes to an entire culture, but until British archaeologist Arthur Evans successfully excavated the ruins of the palace of Knossos on the island of Crete, the great Minoan culture of the Mediterranean was more legend than fact. Indeed its most famed resident was a creature of mythology: the half-man, half-bull Minotaur, said to have lived under the palace of mythical King Minos. But as Evans proved, this realm was no myth. In a series of excavations in the early years of the 20th century, Evans found a trove of artifacts from the Minoan age, which reached its height from 1900 to 1450 B.C.: jewelry, carvings, pottery, altars shaped like bull's horns, and wall paintings showing Minoan life.

- ① King Minos' successful excavations
- ② Appreciating artifacts from the Minoan age
- ③ Magnificence of the palace on the island of Crete
- ④ Bringing the Minoan culture to the realm of reality

Currency debasement of a good money by a bad money version occurred via coins of a high percentage of precious metal, reissued at lower percentages of gold or silver diluted with a lower value metal. This adulteration drove out the good coin for the bad coin. No one spent the good coin, they kept it, hence the good coin was driven out of circulation and into a hoard. Meanwhile the issuer, normally a king who had lost his treasure on interminable warfare and other such dissolute living, was behind the move. They collected all the good old coins they could, melted them down and reissued them at lower purity and pocketed the balance. It was often illegal to keep the old stuff back but people did, while the king replenished his treasury, at least for a time.

In spite of all evidence to the contrary, there are people who seriously believe that NASA’s Apollo space program never really landed men on the moon. These people claim that the moon landings were nothing more than a huge conspiracy, perpetuated by a government desperately in competition with the Russians and fearful of losing face. ① These conspiracy theorists claim that the United States knew it couldn’t compete with the Russians in the space race and was therefore forced to fake a series of successful moon landings. ② Advocates of a conspiracy cite several pieces of what they consider evidence. ③ Crucial to their case is the claim that astronauts never could have safely passed through the Van Allen belt, a region of radiation trapped in Earth’s magnetic field. ④ They also point to the fact that the metal coverings of the spaceship were designed to block radiation. If the astronauts had truly gone through the belt, say conspiracy theorists, they would have died.

Tribal oral history and archaeological evidence suggest that sometime between 1500 and 1700 a mudslide destroyed part of the village, covering several longhouses and sealing in their contents.

From the village of Ozette on the westernmost point of Washington’s Olympic Peninsula, members of the Makah tribe hunted whales. (①) They smoked their catch on racks and in smokehouses and traded with neighboring groups from around the Puget Sound and nearby Vancouver Island. (②) Ozette was one of five main villages inhabited by the Makah, an Indigenous people who have been based in the region for millennia. (③) Thousands of artifacts that would not otherwise have survived, including baskets, clothing, sleeping mats, and whaling tools, were preserved under the mud. (④) In 1970, a storm caused coastal erosion that revealed the remains of these longhouses and artifacts.

Interest in movie and sports stars goes beyond their performances on the screen and in the arena.

- (A) The doings of skilled baseball, football, and basketball players out of uniform similarly attract public attention.
- (B) Newspaper columns, specialized magazines, television programs, and Web sites record the personal lives of celebrated Hollywood actors, sometimes accurately.
- (C) Both industries actively promote such attention, which expands audiences and thus increases revenues. But a fundamental difference divides them: What sports stars do for a living is authentic in a way that what movie stars do is not.

- ① (A) – (C) – (B) ② (B) – (A) – (C)

19. _____ . Nearly every major politician hires media consultants and political experts to provide advice on how to appeal to the public. Virtually every major business and special-interest group has hired a lobbyist to take its concerns to Congress or to state and local governments. In nearly every community, activists try to persuade their fellow citizens on important policy issues. The workplace, too, has always been fertile ground for office politics and persuasion. One study estimates that general managers spend upwards of 80 % of their time in verbal communication — most of it with the intent of persuading their fellow employees. With the advent of the photocopying machine, a whole new medium for office persuasion was invented — the photocopied memo. The Pentagon alone copies an average of 350,000 pages a day, the equivalent of 1,000 novels.

- ① Business people should have good persuasion skills
- ② Persuasion shows up in almost every walk of life
- ③ You will encounter countless billboards and posters
- ④ Mass media campaigns are useful for the government

20. It is important to note that for adults, social interaction mainly occurs through the medium of language. Few native-speaker adults are willing to devote time to interacting with someone who does not speak the language, with the result that the adult foreigner will have little opportunity to engage in meaningful and extended language exchanges. In contrast, the young child is often readily accepted by other children, and even adults. For young children, language is not as essential to social interaction. So-called ‘parallel play’, for example, is common among young children. They can be content just to sit in each other’s company speaking only occasionally and playing on their own. Adults rarely find themselves in situations where _____ .

- ① language does not play a crucial role in social interaction
- ② their opinions are readily accepted by their colleagues
- ③ they are asked to speak another language
- ④ communication skills are highly required
